**ILLUSTRATIVE EXAMPLES** (*See separate document*)

SFRS(I) Interpretation 21 *Levies* (SFRS(I) INT 21) is set out in paragraphs 1–14 and Appendix A. SFRS(I) INT 21 is accompanied by Illustrative Examples, and should be read in the context of the Basis for Conclusions on International Financial Reporting Standards. The scope and authority of Interpretations are set out in the *Preface of Singapore Financial Reporting Standards (International)*.

## Preface

Singapore Financial Reporting Standards (International) (SFRS(I)s) are available for entities to apply for annual reporting periods beginning on or after 1 January 2018.

The first volume of SFRS(I)s contains the equivalent of the consolidated text of International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board (IASB) at 31 December 2017 that are applicable for annual reporting period beginning on 1 January 2018.

In this Interpretation, paragraphs with a prefix 'IFRS' refer to effective date, transition provisions and/or other text that are extracted from IFRSs. An entity that is not a first-time adopter shall apply those requirements, if applicable<sup>1</sup>. Paragraphs that are specific to SFRS(I)s are indicated with a prefix 'SG'.

Notwithstanding the effective date and transition provisions in this Interpretation, an entity that is a first-time adopter of SFRS(I)s<sup>2</sup> shall:

- (A) Initially apply this Interpretation in the first annual period in which it adopts SFRS(I)s; and
- (B) Apply SFRS(I) 1 *First-time Adoption of Singapore Financial Reporting Standards (International)* in its first SFRS(I) financial statements. The entity shall also apply SFRS(I) 1 in each interim financial report that it presents in accordance with SFRS(I) 1-34 *Interim Financial Reporting* for any part of the period covered by its first SFRS(I) financial statements.

SFRS(I) INT 21 *Levies* is equivalent to IFRIC 21 *Levies*. An entity that complies with SFRS(I) INT 21 can simultaneously comply with IFRIC 21.

---

1 For example, SFRS(I) 1 *First-time Adoption of Singapore Financial Reporting Standards (International)* specifies that the transitional provisions in SFRS(I)s apply to a transitioning entity's transition to SFRS(I)s. SFRS(I) 1 defines a 'transitioning entity' as an entity that presents its first SFRS(I) financial statements, and that presented its annual financial statements in the most recent previous year that contained an explicit and unreserved statement of compliance with IFRSs.

2 SFRS(I) 1 *First-time Adoption of Singapore Financial Reporting Standards (International)* defines a 'first-time adopter' as an entity that presents its first SFRS(I) financial statements. A first-time adopter excludes a transitioning entity.

### Background

---

- 1 A government may impose a levy on an entity. There were requests for guidance on the accounting for levies in the financial statements of the entity that is paying the levy. The question relates to when to recognise a liability to pay a levy that is accounted for in accordance with SFRS(I) 1-37 *Provisions, Contingent Liabilities and Contingent Assets*.

### Scope

---

- 2 This Interpretation addresses the accounting for a liability to pay a levy if that liability is within the scope of SFRS(I) 1-37. It also addresses the accounting for a liability to pay a levy whose timing and amount is certain.
- 3 This Interpretation does not address the accounting for the costs that arise from recognising a liability to pay a levy. Entities should apply other Standards to decide whether the recognition of a liability to pay a levy gives rise to an asset or an expense.
- 4 For the purposes of this Interpretation, a levy is an outflow of resources embodying economic benefits that is imposed by governments on entities in accordance with legislation (ie laws and/or regulations), other than:
  - (a) those outflows of resources that are within the scope of other Standards (such as income taxes that are within the scope of SFRS(I) 1-12 *Income Taxes*); and
  - (b) fines or other penalties that are imposed for breaches of the legislation.

‘Government’ refers to government, government agencies and similar bodies whether local, national or international.
- 5 A payment made by an entity for the acquisition of an asset, or for the rendering of services under a contractual agreement with a government, does not meet the definition of a levy.
- 6 An entity is not required to apply this Interpretation to liabilities that arise from emissions trading schemes.

## Issues

---

- 7 To clarify the accounting for a liability to pay a levy, this Interpretation addresses the following issues:
- (a) what is the obligating event that gives rise to the recognition of a liability to pay a levy?
  - (b) does economic compulsion to continue to operate in a future period create a constructive obligation to pay a levy that will be triggered by operating in that future period?
  - (c) does the going concern assumption imply that an entity has a present obligation to pay a levy that will be triggered by operating in a future period?
  - (d) does the recognition of a liability to pay a levy arise at a point in time or does it, in some circumstances, arise progressively over time?
  - (e) what is the obligating event that gives rise to the recognition of a liability to pay a levy that is triggered if a minimum threshold is reached?
  - (f) are the principles for recognising in the annual financial statements and in the interim financial report a liability to pay a levy the same?

## Consensus

---

- 8 The obligating event that gives rise to a liability to pay a levy is the activity that triggers the payment of the levy, as identified by the legislation. For example, if the activity that triggers the payment of the levy is the generation of revenue in the current period and the calculation of that levy is based on the revenue that was generated in a previous period, the obligating event for that levy is the generation of revenue in the current period. The generation of revenue in the previous period is necessary, but not sufficient, to create a present obligation.
- 9 An entity does not have a constructive obligation to pay a levy that will be triggered by operating in a future period as a result of the entity being economically compelled to continue to operate in that future period.
- 10 The preparation of financial statements under the going concern assumption does not imply that an entity has a present obligation to pay a levy that will be triggered by operating in a future period.
- 11 The liability to pay a levy is recognised progressively if the obligating event occurs over a period of time (ie if the activity that triggers the payment of the levy, as identified by the legislation, occurs over a period of time). For example, if the obligating event is the generation of revenue over a period of time, the corresponding liability is recognised as the entity generates that revenue.
- 12 If an obligation to pay a levy is triggered when a minimum threshold is reached, the accounting for the liability that arises from that obligation shall be consistent with the principles established in paragraphs 8–14 of this Interpretation (in particular, paragraphs 8 and 11). For example, if the obligating event is the reaching of a minimum activity threshold (such as a minimum amount of revenue or sales generated or outputs produced), the corresponding liability is recognised when that minimum activity threshold is reached.
- 13 An entity shall apply the same recognition principles in the interim financial report that it applies in the annual financial statements. As a result, in the interim financial report, a liability to pay a levy:

- (a) shall not be recognised if there is no present obligation to pay the levy at the end of the interim reporting period; and
  - (b) shall be recognised if a present obligation to pay the levy exists at the end of the interim reporting period.
- 14 An entity shall recognise an asset if it has prepaid a levy but does not yet have a present obligation to pay that levy.

## **Appendix A**

### **Effective date and transition**

*This appendix is an integral part of the Interpretation and has the same authority as the other parts of the Interpretation.*

IFRS.  
A1 An entity shall apply [IFRIC 21 *Levies* (issued by IASB in May 2013)] for annual periods beginning on or after 1 January 2014. Earlier application is permitted. If an entity applies this Interpretation for an earlier period, it shall disclose that fact.

IFRS.  
A2 Changes in accounting policies resulting from the initial application of this Interpretation shall be accounted for retrospectively in accordance with IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*.
